

WELCOME TO BMXIFY!

What started as a personal passion project has grown into something bigger, now providing at least 400 BMX racers with individual or team design number plate stickers and more.

It's undeniable that BMX racers want to stand out amongst others, and the design of the bike, gear, and everything else plays a big role in that (though, of course, skill, speed on the track, and personality are more important).

I've been a design enthusiast throughout my entire racing career, and somehow, having everything just the way I wanted design-wise helped me feel more confident on the track.

So, whether you're a professional BMX rider, an amateur enthusiast, or simply someone who loves great design, we're confident you'll find something you love at BMXify.
